📄 Driving licence (B)

🏠 Illkirch-Graffenstaden (67400)

Skills

Languages:

C#, Java, Python, C, SQL

Tools & Environments:

Git / GitHub, Linux (Bash), Docker, .NET (WinForms)

Methods & Design:

OOP, MVC, UML, Unit Testing (JUnit 4)

Interests

Hardware & Homelab:

PC building, personal servers

Sports:

Basketball, hiking

Hobbies:

Video games, reading (fantasy, manga)

Languages

French

Native

English

B2 + (Professional working proficiency)

German

A2 (Elementary)

Key Strengths

Accountability

Team player

Thoroughness

Patience & composure under pressure

Computer Science Projects

Custom PDF Print Layout Tool | Python, CustomTkinter, PyMuPDF

Jun. 2026 **Projet personnel** Illkirch-Graffenstaden

- Developed a desktop GUI for formatting (side-by-side layout), dynamically adding text overlay, and printing PDF order forms.
- Implemented real-time print previews and document manipulation using PIL and PyMuPDF.
- Integrated native Windows API (`win32print`, `win32ui`) to send print jobs directly to the spooler, bypassing external PDF reader dependencies.

Stargate Management Application | C#, .NET Windows Forms, SQLite, BCrypt, Git

From May 2026 to Jun. 2026 **IUT Robert Schuman** Illkirch-Graffenstaden

- Designed and built a desktop application for managing and visualizing planetary, mission, and crew data.
- Handled database persistence using SQLite: relational queries and structured data storage.
- Implemented a secure authentication module featuring password hashing via BCrypt.
- Created reusable user interface components (UserControls) following a layered architecture.

Inscription-like — Tactical Card Game | Java, JUnit 4, UML, Git

From Apr. 2026 to Jun. 2026 **IUT Robert Schuman** Illkirch-Graffenstaden

- Full object-oriented architecture following the MVC design pattern (game engine, business model, UI, and AI opponent).
- Implemented design patterns (Factory for card generation, polymorphism for special abilities).
- Test-driven development: comprehensive unit test suite with JUnit 4 covering game rules and board logic.
- Upfront software modeling using PlantUML class diagrams.

Education & Qualifications

Bachelor of Technology (B.U.T.) in Computer Science

Since Sept. 2025 **IUT Robert Schuman** Illkirch-Graffenstaden

1st Year undergraduate in Electrical Engineering & Industrial IT (GEII)

From Sept. 2023 to Jun. 2024 **IUT Montpellier - Sète** Montpellier

High School Diploma (STI2D) — Obtained

From Sept. 2021 to July 2023 **Schwilgué** Sélestat

Work Experience

Educational Assistant & Boarding School Supervisor

Since Sept. 2025 **Lycée Alexandre Dumas** Illkirch-Graffenstaden
Student supervision, conflict mediation, team coordination, and handling emergency situations.

Team Member

From Jan. 2025 to Jun. 2025 **Burger King** Bernolsheim

- Fast-paced teamwork during peak hours, execution rigor, and customer service.
